How to Use This Document

- This brief collects all the information needed to build your fully autonomous AI acquisition machine.
- There are **8 sections** covering company details, audience, content preferences, technical setup, and more.
- Please answer every question as specifically as possible — vague answers produce generic content.
- If you don't know an answer yet, write “**TBD**” and we'll discuss it during kickoff.
- Attach any existing assets: logos, brand guidelines, competitor links, vendor testimonials.
- **Estimated time to complete:** 30–45 minutes.
- Return the completed brief and we'll start building within 48 hours.

What Happens Next

- Step 1:** You return this brief
- Step 2:** We configure all tools (n8n, Airtable, ManyChat, Buffer, Apify, WATI)
- Step 3:** We build and connect all 8 AI agents
- Step 4:** MVP launches — comment funnels go live, content starts generating
- Step 5:** We iterate based on real performance data

Phase	Timeline	What Happens
